📍 Work Authorization: Requires EU Blue Card Sponsorship (ready to relocate)

🏠 Bangalore, India

WORK EXPERIENCE

Senior Backend Engineer

IBM

08/2021 - Present, Bangalore, Karnataka, India

- Designed, developed and owned multiple Java & Spring Boot microservices supporting critical business workflows in a large enterprise environment.
- Improved backend reliability and traceability by implementing robust error handling, logging and monitoring, contributing to a ~20% reduction in production defects.
- Optimized API performance and service integrations, improving overall response times and system stability.
- Collaborated closely with product owners, architects and QA teams in an Agile setup to deliver features from design to production.
- Led code reviews and quality initiatives, enforcing clean code, test coverage and best practices across the team.
- Contributed to Angular-based frontend enhancements where required, improving user interaction speed by ~30%.
- Supported deployment of backend microservices on Kubernetes using Docker and Helm charts.

Backend / Full Stack Engineer

ACCENTURE

01/2020 - 08/2021, Bangalore, Karnataka, India

- Built and enhanced microservices and REST APIs with a focus on scalability, performance and maintainability.
- Optimized backend API response times by ~25% through code refactoring and improved database interactions, enhancing application scalability.
- Expanded and maintained automated tests using JUnit, Mockito, Jasmine/Karma and Cypress, improving release confidence and reducing regression issues.
- Delivered standalone micro-applications and participated in end-to-end feature delivery across backend and frontend layers.
- Worked directly with client stakeholders to refine requirements and deliver production-ready solutions.

OBJECTIVE

Senior Backend Engineer (Java, Distributed Systems)

Senior Backend Engineer with 8+ years of experience building and scaling Java-based microservices for enterprise and regulated domains. Strong background in distributed systems, REST APIs, security and cloud-native deployments.

Experienced in owning services end-to-end, improving performance, reliability and observability. Seeking Germany-based roles with Blue Card sponsorship.

CORE TECHNICAL SKILLS

Java, Spring Boot, Microservices, Spring Security

Distributed Systems, Rest APIs, Design Patterns

Docker, Jenkins, CI/CD Pipelines, Cloud exposure - Azure Fundamentals

JUnit, Mockito, Wiremock, Cucumber, Jasmine/Karma

Angular & Typescript (Secondary)

Agile/Scrum, Code Review, Code Refactoring & Optimization

Sonar, Nexus, JIRA, GitHub Actions, Git

Software Engineer (Backend-Focused)

YETHI CONSULTING PVT. LTD.

05/2017 - 01/2020, Bangalore, Karnataka, India

- Enhanced and Improved backend components using Core Java, J2EE, JSP and JSTL, supporting business and data access layers.
- Led architectural and performance improvements of a core module, achieving ~50% performance enhancement.
- Integrated third-party tools and services to extend product capabilities and improve test coverage.
- Mentored junior and senior developers, improving overall team productivity and code quality.

ACHIEVEMENTS

Certifications

- **Microsoft Certified: Azure Fundamentals** — Microsoft, January 2025

Badges

- Enterprise Design Thinking Practitioner — IBM, August 2023
- Insurance Industry Jumpstart — IBM, July 2023
- Aerospace and Defence Industry Jumpstart — IBM, August 2023
- Method Essentials — IBM, January 2025
- IBM Watsonx Essentials — IBM, March 2024
- IBM Watsonx.ai Technical Essentials — IBM, July 2024

EDUCATION

**Master of Computer Applications,
University of Mysore,
Mysore, Karnataka, India**

04/2021 - 09/2023

GPA: 8.2/10

**B. Tech, MJP Rohilkhand University,
Bareilly, Uttar Pradesh, India**

07/2012 - 07/2016

GPA: 6.7/10
